- Key points:
 - The request is for the Spring celebration, and the club had trouble getting any other funding. They were denied by COB and other funding sources, and they used all their revenue funding for their events (that happen weekly). They have not been able to get funding for any of their events. They
 - Royal Oaks Country Club will host the event, and catering will be provided by them at a \$10 starter. Royal Oaks Country Club is a lower-cost option compared to places like the Hilton. One of their members (who work at the country club) got them a discount.
 - FSC isn't big enough to accommodate all the attendees, and people end up bumping into each other, so it makes sense to use a different venue.
 - They plan to sign up students, and ideally, students won't have to pay for their tickets. They're trying to invite faculty members and local professionals from Accounting and MIS firms. It's meant to be a networking event for students, especially those who are about to graduate.
 - It's scheduled for April 25.
- Ryan motions to end the discussion and move to a vote
- Queen seconds

Key points: The demand for the bill is too high, and there's not enough arguments and there's no evidence of benefits for the students, moreover the attendance is low. not enough detailed provided. Although the party is open to all students, they still prioritize their members.

Kevin motions to kill the bill

Unanimous Vote for killing of the bill

4. Executive Updates

After the announcement of the remaining money in the COB, some clubs' leaders want an Internal audit of OSI and the COB. The club's leaders want the senator to do it. Clubs want to make a senate resolution to do it and talk about the budget. Senate is interested into filling a resolution.
